ENVIRONMENTAL POLICY

We support sustainable development and are committed to environmental protection in all our operations. We comply with the environmental protection requirements originating from national and EU legislation and from our stakeholders. Additionally, we are committed to developing our environmental management system according to the requirements of ISO 14001 standard.

We decrease the detrimental effects of our business operations on the environment by guaranteeing the long life cycle of our products, by reducing the carbon footprint of our operations and products and by reducing the amount of waste generated and by ensuring proper recycling of the waste.

We aim to be a reliable and responsible partner to our customers and associates. We are committed to the principles of continuous improvement, both in our own production and in the supply and distribution chain, in cooperation with our stakeholders.
